# Midterm Project

# Jasper around the world in 2024 🌍

## Jasper

# Project Overview

I created a personal travel website to document and showcase my trips throughout 2024. The site serves as a digital travel journal, featuring summaries, photos, and highlights from the places I visited. It is designed to share my experiences with friends, family, and anyone interested in travel stories.

# Progress So Far

1. Completed the homepage with a brief summary of my 2024 travels

2. Created a destination page for Florence, featuring trip details.

3. Created a page for the Red Derby football match experience

4. Built a functional navigation bar and footer

5. Implemented a responsive design using media queries for mobile devices

# Code Highlight

```html
<div class="nav-bar">
    <ul>
        <li class="dropdown">
            <a href="#">USA</a>
            <ul class="submenu">
                <li><a href="./Hawaii.html">Hawaii</a></li>
                <li><a href="#">Orlando</a></li>
                <li><a href="#">Gallery</a></li>
            </ul>
        </li>

        <li class="dropdown">
            <a href="#">England</a>
            <ul class="submenu">
                <li><a href="#">Manchester</a></li>
                <li><a href="#">London</a></li>
                <li><a href="#">Gallery</a></li>
            </ul>
        </li>

        <li class="dropdown">
            <a href="#">Italy</a>
            <ul class="submenu">
                <li><a href="#">Rome</a></li>
                <li><a href="Florence.html">Florence</a></li>
                <li><a href="#">Dolomites</a></li>
                <li><a href="#">Gallery</a></li>
            </ul>
        </li>
```

```css
/* The submenu hidden first,once hover change the display to block */
.submenu {
    display: none; /* Hide submenu */
    position: absolute;
    top: 100%;
    left: 0;
    width: 100%;
    background-color: #f8f5f0;
    border-radius: 5px;
    box-shadow: 0px 2px 5px rgba(0, 0, 0, 0.1);
    list-style: none;
    padding: 0;
}

/* Ensure submenu items are also hidden */
.submenu li {
    display: none;
    width: 100%;
    z-index: 1000;
}

/* Show submenu when hovering over dropdown */
.dropdown:hover .submenu {
    display: block;
}

.submenu li a {
    width: 100%;
    display: block;
    color: black;
    text-decoration: none;
}
/* The dropdown menu is big region it ensures the submenu is visible  when we scroll the submenu*/
.dropdown:hover .submenu li {
    display: block;
    color: black;
}

.submenu li:hover a {
    background-color: #e9ecef;
    color: black;
```

# Next Steps

1. Finish building the remaining destination pages

2. Implement JavaScript to add interactive features, such as switching images when clicking buttons

3. Continue refining the design and functionality
